Mr. Pierman noted that the District could sublet space to HOAs to reduce the cost to the District. He also noted that the new Clubhouse furniture should arrive in approximately eight weeks.

Mr. Salvatore presented a proposal from Arazoza for flower rotation at the Clubhouse in the amount of \$2,805.

Following discussion, a **motion** was made by Ms. Schechter, seconded by Mr. Lopez and unanimously passed approving the ongoing seasonal flower rotations for an amount not-to-exceed \$3,000 per rotation.

Mr. Salvatore noted that several lights around the Clubhouse were not working and presented a proposal in the amount of \$9,650 to replace them. Following discussion, Mr. Cartlidge recommended contacting Kast to see if they were still covered or determine if they were installed correctly.

Mr. Salvatore discussed the tennis and pickle ball reservation system, noting that there were issues.

Following discussion, a **motion** was made by Mr. Cartlidge, seconded by Ms. Schechter and unanimously passed to table this item until the access system is operational.

Ms. Chiaramonte provided a recap of events that took place at the Clubhouse over the past month and highlighted upcoming events.

#### K. ADMINISTRATIVE MATTERS 1. Discussion Regarding Littoral Trees

A **motion** was made by Ms. Schechter, seconded by Mr. Lopez and unanimously passed to engage UDK to work with the City on options.

### 2. Discussion Regarding Meeting Call-In Access

Mr. Pierman explained that the new phone conference system allowed for callers to listen in on the meeting without participating. In conversations with Mr. Pawelczyk, there were questions concerning the legality of offering this option, but asked if the Board would like to explore it.

Following discussion, a **motion** was made by Mr. Cartlidge, seconded by Ms. Schechter and unanimously passed allowing muted call-ins, subject to legal review.

#### Hi Jason

I live in La Terre ant 12233 Waterstone Circle . I wanted to make a suggestion to add to what I'm sure is a long list!

I think it would be beneficial to have a garbage can for each neighborhood along Avenir Drive. There's so much garbage coming off of trucks or blowing from the wind or water bottles from construction workers etc and there is only one can that I've found in addition to the clubhouse location...

Neighbors pick up but have to carry garbage home to throw away!

Thanks for your consideration. Again I know there is a long list!

Soon there will be lots of traffic and we will need to illuminate the stop signs as well.

Just trying to keep the neighborhood clean and safe!

Thank you!

# PART III(1): PLANNED IMPROVEMENTS – PARCEL A-21 PROJECT

Following is a brief summary of the anticipated public infrastructure improvements, constituting the Parcel A-21 Project, to be constructed for the benefit of the District:

# A. Water Management & Erosion Control

Pursuant to the Conceptual Environmental Resources Permit issued by South Florida Water Management District for the Avenir development, the Projects are required to provide a series of culverts and catch basins to route the surface water runoff to the existing lakes owned by the CDD. Also, the land within the Parcel A-21 Sub-Assessment Areas needs to be graded towards the roads for erosion control purposes and a pollution and sedimentation control plan needs to be implemented for the duration of the construction of the required improvements. The road rights-of-way will need to be graded to meet water management requirements.

# B. Sewage Collection System

The Parcel A-21 Project is located within the Seacoast Utility Authority ("SUA") sewer service area. Subject to prevailing fees, charges, policies and practices, SUA proposes to provide sanitary sewer service collection, distribution and treatment. Currently, SUA does not have the facilities in place to service the site and therefore, will be providing service thru the existing Interlocal Agreement between Palm Beach County and Seacoast Utility Authority for the Purchase and Sale of Bulk Potable Water and Wastewater Service.

# Existing and Proposed Sewage Collection Improvements

The proposed improvements for the sewage collection system comprising a portion of the Projects consists of a network of gravity mains and sewer services which will collect and discharge the generated sewage flow from the residential units within Parcel A-21 Sub-Assessment Area to a proposed lift station which will pump the generated flow to an existing force main located on Avenir Drive.

# Existing Sewage Treatment Facilities

Sewage treatment will be provided by the East Central Regional Wastewater Treatment Facilities Operation Board ("ECR") which is funded

and governed by a board comprised of the representatives of the entities served by that facility, namely: the City of West Palm Beach, the City of Lake Worth, the City of Riviera Beach, the Town of Palm Beach, and the County. The ECR is licensed to function under specific guidelines by the State of Florida and the U.S. Environmental Protection Agency.

Currently, the plant is treating approximately 45 million gallons per day and therefore, the plant has adequate capacity to treat the anticipated flow for the Projects.

### Regulation Compliance

The proposed sewage collection/transmission system will be designed to meet the requirements of the following permitting agencies:

- Seacoast Utility Authority
- Palm Beach County Water Utilities Department
- City of West Palm Beach
- Palm Beach County Health Department
- Florida Department of Environmental Protection
- City of Palm Beach Gardens
- ECR

# C. Water Distribution System

The Parcel A-21 Project is located within the Seacoast Utility Authority ("SUA") domestic water service area. Subject to prevailing fees, charges, policies and practices, SUA proposes to provide domestic water service, distribution, and treatment. Currently, SUA does not have the facilities in place to service the site and therefore, will be providing service thru an existing Interlocal Agreement between Palm Beach County and Seacoast Utility Authority for the Purchase and Sale of Bulk Potable Water and Wastewater Service. SUA will require the payment of capacity charges prior to approving the construction drawings for the proposed system.

#### Existing and Proposed Water Distribution System Improvements

The proposed improvements for the water distribution system comprising the Parcel A-21 Project consist of the installation of a water main, fire hydrants and water services. The system will be connected to an existing water main located along Avenir Drive.

#### Regulation Compliance

The proposed water distribution system will be designed to meet the requirements of the following permitting agencies:

• Seacoast Utility Authority

- Palm Beach County Water Utilities Department
- City of West Palm Beach
- Palm Beach County Health Department
- Florida Department of Environmental Protection
- City of Palm Beach Gardens

# D. Access Roads

In order to comply with the water management requirements for the Projects, a stabilized access road needs to be provided and graded to direct the surface water runoff to the catch basins. Also, as required by the permitting agencies and the City of Palm Beach Gardens Code of Ordinances, the road will provide access to the public utility providers during construction of the public improvements (Fire/Police/EMS) constituting the Parcel A-21 Project. The roadway components include, but are not limited to, grading the road right-of-way and curbing which are related to the storm water management system. These improvements will be located within Parcel A-21 Sub-Assessment Area and will benefit the assessable land therein.

# E. Landscape, Buffers, Paths, Sidewalks and Irrigation

Pursuant to the City's approved site plan for the Projects, the landscape, buffers, paths, sidewalks and irrigation improvements in common areas and easements to be owned or maintained by the CDD will be constructed to meet the conditions of approval in accordance with local regulations. Only landscape, buffers, paths, sidewalks and irrigation improvements outside of the hard gate will be financed with the proceeds of the Bonds, will be located within Parcels A-21 Sub-Assessment Area and will benefit the assessable land therein.

# F. Hardscape and Walls

Pursuant to the City's approved site plan for the Projects, the entry features and sound barrier walls/fences and gates in common areas and easements to be owned or maintained by the CDD will be constructed to meet the conditions of approval in accordance to in accordance to local regulations. These fees vary depending on the type of work involved and are usually based on a percentage of the total cost of the work.

# D. Part VI of the 2024 Report is hereby supplemented to add subsection PART VI(1), entitled "CONCLUSION – PARCEL A-21 PROJECT," as follows:

# PART VI: CONCLUSION – PARCEL A-21 PROJECT

# A. Benefits and Costs:

The planned improvements described herein will provide a direct and special benefit to all owners of the properties and residential parcels within the Parcel A-21 Sub-Assessment Area. Also, the construction and maintenance of the improvements comprising the Parcel A-21 Project will benefit said owners and properties. In all cases the price to be paid by the District for the improvements comprising the Parcel A-21 Project will be the lower of the actual cost of such improvements or the fair market value.

# B. Recommendations:

The District will need to obtain revenues for the purpose of funding the construction of the required public improvements listed in this A-21 Report. The Bonds to be issued in one or more series in connection with the development of the Parcel A-21 Sub-Assessment Area will be secured by the levy of special assessments levied against the assessable lands in Parcel A-21 Sub-Assessment Area Two.

# C. Modifications to the Report:

It may be necessary to make changes and modification to the planned improvements during the planning, permitting and construction stages of the public infrastructure. It is not expected that the changes and modifications will significantly impact the information and conclusions contained in this report.

Based on the information obtained to date and the recommendations listed in the reports prepared by various consultants associated with the Parcel A-21 Project, it is our opinion that as set forth in the approval requirements from the applicable governmental entities, the lands within Parcel A-21 Sub-Assessment Area in the District can be developed for its intended use.

The estimated cost associated with the planned improvements comprising the Parcel A-21 Project is only an estimate and not a guaranteed maximum price. The estimated cost is based on unit prices currently being experienced for on-going and similar items of work in the area. The labor market, future costs of equipment and material, and the actual construction process are all beyond our control. Due to this inherent opportunity for fluctuation in cost, the total final cost may be more or less than the estimated value. The professional services for establishing the opinion of estimated construction cost are consistent with the degree of care and skill exercised by members of the same profession under similar circumstances.

It is our opinion that the direct and special benefits to be received by the landowners and residents within the designated area securing the Bonds within the District as a result of the construction and acquisition of the infrastructure constituting the Parcel A-21 Project within Parcel A-21 Sub-Assessment Area are at least equal to the cost thereof.

# PART III.

The 2024 Report is amended and supplemented as provided in this A-21 report. In all other respects, the 2024 Report is hereby ratified, reaffirmed and shall remain in full force and effect as provided by its terms.

I hereby certify that the foregoing is a true and correct copy of the First Amendment to the Eighth Supplemental Engineer's Report (Parcel A-21 Project) for the Avenir Community Development District.

Sincerely,

# BALLBÉ & ASSOCIATES, INC.

# **CONSTRUCTION CONTRACT** (Landscape and Irrigation Improvements)

**BY THIS AGREEMENT** (herein called the "General Conditions" or "Agreement") made this \_\_\_\_\_\_day of \_\_\_\_\_\_, 202\_\_\_ between **AVENIR COMMUNITY DEVELOPMENT DISTRICT**, a local unit of special-purpose government organized under the provisions of Chapter 190 Florida Statutes (herein called "CDD") whose address is 2501A Burns Road, Palm Beach Gardens, FL 33410, and **ARAZOZA BROTHERS CORPORATION**, a Florida corporation (herein called "Contractor") whose address is 7027 S.W. 87th Court, Miami, Florida 33173, agree as follows (each a "Party" and together "Parties"):

<u>ARTICLE 1.</u> <u>GENERAL:</u> Palm Beach County, Florida (the "County") owns the property known as <u>NORTHLAKE BOULEVARD MEDIAN FRONTING AVENIR TOWN CENTER</u> as described in <u>Exhibit "A"</u>. CDD, and Contractor wish to establish a general agreement of terms and conditions under which Contractor's work will be conducted.

(a) Contractor shall obtain and furnish all supervision, labor, tools, equipment, permits and licenses necessary to construct the improvements to the project (the "Project") as shown on **Exhibit "B"** (herein called "Work"). Contractor shall perform the Work in accordance with this contract and the general and special conditions, specifications, schedules, drawings, permits and other items forming a part of the Contract as shown in **Exhibit "C"** (herein collectively called the "Plans and Specifications"), all of which are made a part hereof by reference.

(b) The scope of work herein above described is intended solely as a general outline for convenience in specifying the scope of the Work and does not eliminate or limit any requirement in this Contract or any items required for completion of the Project intended by this Contract or any items required for completion of the Project intended by this Contract. The intent of the Plans and Specifications is to provide the CDD with a complete, and functional Project in full compliance with all applicable local, city, county, state and national codes and regulations and the highest standards and practices of the construction industry. All labor and equipment required to fully comply with the requirements and intent of the Plans and Specifications are included under the scope of this Contract. Any request for extras which appears to be based either on the lack of specific details in the plans or specific reference in the specifications, will not be approved as an extra if in the sole opinion of BALLBÉ & ASSOCIATES, INC. (herein collectively called the "Engineer") (or if in the opinion of another qualified representative designated by CDD), the work in question is a required item under the Plans and Specifications (which opinion shall be conclusive and binding on Contractor).

(c) This is a fixed price contract whereby Contractor agrees to perform Work specified herein in accordance with Plans and Specifications for a maximum price of <u>TWO HUNDRED</u> <u>NINETY-ONE THOUSAND EIGHT HUNDRED SEVEN DOLLARS AND 00/CENTS</u> (\$291,807.00), (herein called "Contract Price") and in accordance with payment based on the schedule of values listed in <u>Exhibit "F"</u>. Contractor will commence Work after receiving written notice to proceed by CDD. Contract Price does not include the cost of the permits required to perform the Work.

ARTICLE 2. CONTRACTOR'S DUTIES: Contractor agrees to fully cooperate with CDD and Engineer to perform the Work in the most expeditious and economical manner consistent with the interest of the CDD. Contractor further agrees to (i) utilize the Contractor's best skill, efforts and judgment in furthering the interest of CDD, and (ii) furnish at all times an adequate supply of labor and equipment in order to complete the Work within the time required by the Contract. Contractor agrees to furnish and pay for all labor, hoists, equipment, tools, machinery, transportation, general field requirements, and other costs and expenses whatsoever, both direct and indirect, necessary to complete the Work in accordance with the Contract and Plans and Specifications, as the same may reasonably be amended, modified or interpreted from time to time by CDD and/or Engineer. Any and all costs and expenses incurred in completing the Work shall be paid by Contractor whether or not such items are actually incorporated or consumed in the construction of the Project and regardless of whether such items are temporary or permanent in nature.

<u>ARTICLE 3.</u> <u>COMPLIANCE WITH LAWS, CODES AND RESTRICTIONS:</u> Before commencing any Work, Contractor shall deliver a copy of its Contractor's license and an appropriate occupational license to CDD (which licenses must be kept active and in good standing at all times). Contractor agrees that all Work shall comply with (i) all development, building, zoning, fire and safety codes, and (ii) all other ordinances, statutes, rules, regulations, environmental recommendations and laws affecting the Project, as the same may reasonably be amended, interpreted or enforced from time to time, all with no additional compensation payable to Contractor and as if originally specified in the Contract. Contractor represents and warrants to CDD that Contractor and all of its subcontractors, sub-subcontractors, materialmen, suppliers, laborers and others performing all or a portion of the Work (each, a "Lienor") are bound by the Plans and Specifications and other Contract documents as they relate to any portion of the Work performed by said Parties.

Any changes, additions or amendments to governing laws, ordinances, statutes, rules, regulations and covenants and declarations which become effective after the date this Contract is signed by the Contractor, which the Contractor could not reasonably foresee and which apply to the Work, and to the extent the Contractor incurs extra costs due to the changes, additions and amendments shall be grounds for the Contractor to receive additional compensation from the CDD.

<u>ARTICLE 4.</u> <u>CONSTRUCTION MEANS AND TESTING:</u> Contractor shall be solely responsible for all construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work under the Contract. If the inspection is by an authority other than CDD, Contractor will arrange for such inspections and promptly advise CDD of the date fixed for such inspection and any required certificates of inspection being secured. Any special or other (e.g. threshold) inspector engaged for the Project pursuant to any law, code, ordinance, rule or regulation shall be deemed an agent or representative of the governmental agency to which the inspector renders reports or certifications.

**ARTICLE 5. SCOPE OF WORK:** It is the intent of CDD and Contractor that the Plans and Specifications provide for the construction of completed work by the Contractor, including all devices, materials or other work not shown in the Plans and Specifications by which are reasonably inferable therefrom and any and all incidental accessories necessary to make the Work complete and operable in all respects (even if not specified in the description of the Work, but necessary for proper installation and operation of the Work under the Plans and Specifications).

The Scope of Work is more specifically identified within <u>Exhibit "D"</u> attached hereto. The Scope of Work may be amended, modified, and/or expanded from time to time to accommodate the CDD's expansion into additional areas of construction within the overall development site. Such additions, deletions, and/or modifications shall be made only through written Change Order(s) approved by the CDD and Contractor.

<u>ARTICLE 6. MEASUREMENTS AND LINES:</u> Before commencement of the Work, Contractor shall verify the measurements and quantities indicated on the Plans and Specifications. Contractor shall be responsible for the accuracy and proper location for the installation of the planting material. All work shall be installed level, true to line and grade in the exact plane and to the correct elevation, or sloped to drain, as outlined in the Plans and Specifications, so as to provide a completed and fully functional set of Work elements. The Work shall adequately mesh, interface and correctly and fully operate, function and supplement the work of the other contractors of CDD, if any, in order to provide a complete and fully operable Project, all at no extra cost to CDD. If at any time, including during the performance of the Work, the Contractor observes that the Plans and Specifications are deficient in any respect, Contractor shall promptly notify the CDD in writing, and any necessary changes shall be accomplished by an appropriate modification.

<u>ARTICLE 7.</u> <u>TITLE TO MATERIALS:</u> All work furnished, fabricated, installed or delivered to the Project and all materials, fixtures or equipment installed in the Project shall be free and clear of any claims, liens or encumbrances. Immediately upon performance of any part of the Work by Contractor under the Contract, title to all such Work shall vest in the CDD, and Contractor warrants such title shall be free of any claims, liens or encumbrances, except to the extent that payment for such Work is due under the Contract.

<u>ARTICLE 8.</u> <u>SEPARATE CONTRACTORS:</u> Contractor shall afford CDD and its separate contractors reasonable opportunity for the introduction and storage of their materials and equipment and the execution of their work, and shall connect with and coordinate Contractor's Work with the work of the CDD's separate contractors (if any). Contractor shall fully cooperate with CDD's separate contractors (if any). Contractor shall fully cooperate with CDD's separate contractors in order to avoid delays and disputes in construction of the Project. Contractor shall not damage or endanger any work of CDD's separate contractors by cutting, patching or otherwise altering such construction without the prior written consent of CDD and the separate contractor. Contractor shall not unreasonably withhold from the CDD or a separate contractor the Contractor's consent to cutting or otherwise altering the Contractor's Work. Any costs arising due to defective or improperly timed work shall be borne by the responsible Contractor and not CDD.

ARTICLE 9. CONSTRUCTION LIENS: Contractor shall ensure that no construction liens, or other encumbrances whatsoever (including equitable lien claims), shall be filed or maintained by the Contractor or by any subcontractors, materialmen, laborers or other lienors (each, a "Lienor") in connection with any Work, equipment or material for which CDD has made payment or for which payment is not yet due under the Contract. Contractor agrees to indemnify, defend and hold CDD and County harmless from and against all liens or other claims whatsoever filed by or against the CDD or the Project by any Lienor for work performed or materials or services furnished in connection with the Work for which Contractor has been paid or for which payment is not due at the time the lien is filed. In the event a claim of lien is filed against CDD's or County's property,

Contractor shall cause the same to be satisfied within five (5) days following the date of filing, or in the alternative, shall cause the claim of lien to be transferred to bond.

**ARTICLE 10. COMMENCEMENT** AND **COMPLETION OF WORK:** Contractor agrees to commence the Work immediately upon notification by CDD of the desired commencement date. Contractor agrees to coordinate the progress of the Work in accordance with the schedule developed by CDD as shown in **Exhibit "E"**. Contractor shall complete the Work within the time agreed in the CDD's schedule (or any amendment) and such completion date ("Completion Date") shall be specified by the CDD. At CDD's request, Contractor shall prepare a separate critical path matrix for the Work, establishing milestone dates for the completion of the Work in coordination with the schedule developed by the CDD. From and after the Commencement Date, Contractor shall diligently and continuously perform the Work. If CDD determines at any time that the Contractor is behind schedule in the progress of the Work, then, upon notice from the CDD, Contractor shall engage such additional workmen and work such weekend and overtime shifts as are necessary to bring the progress of the Contractor's Work into compliance with the schedule. All such costs and expenses for additional workmen and weekend and overtime shifts shall be at the expense of the Contractor.

ARTICLE 11. **PROGRESS PAYMENT:** CDD agrees to pay Contractor for the performance of the work the Contract Price specified herein, subject to adjustments and offsets provided herein, in monthly payments ("Progress Payments") during the progress of the Work. Contractor may apply for Progress Payments by submitting an executed request for payment ("Payment Request") based upon the stage of the Work completed and installed through the date of the Payment Request. If any stage of the Work requires testing or special approvals, Contractor may only make application for payment after that portion of the Work has been tested and approved. Payment Requests shall show (i) the value of all labor and materials incorporated into the Work through the end of the preceding billing period (based on the approved schedule of values), (ii) the ten percent (10%) retainage to be withheld by CDD from that Progress Payment, (iii) the cumulative retainage withheld by CDD through the date of the preceding billing period, (iv) all prior Progress Payments made, and (v) the net amounts for each item of the Work requested by the Contractor for that Payment Request. Contractor may only request payment for installed and fully completed work and not partially completed Work or portions thereof shall be payable even if such Work is expected to be completed prior to the time payment for that application is due. Payment Requests shall not include the cost of stored materials or materials delivered to the site which have not vet been installed, unless preapproved in writing by CDD and its insurance carrier. CDD is only responsible for installed materials; Contractor shall be solely liable for any loss or damage to stored materials or equipment (whether stored on-site or off-site), unless otherwise specifically agreed to by CDD in writing.

Payment Requests shall be delivered no later than the 25<sup>th</sup> day of each month in which Contractor requests a payment. Contractor shall not submit Payment Requests more frequently than once per month. CDD shall have a period of fifteen (15) days after receipt of a proper Payment Request in which to pay Contractor for any sums then due, provided that during this fifteen (15) day period CDD and Engineer have approved the request. CDD may retain ten percent (10%) of each Progress Payment. No Progress Payment (including the Final Payment) made under a Contract shall be construed as CDD's acceptance of defective or improper Work nor construed as a waiver of Contractor's obligation to perform the Work in compliance with the Contract. Contractor shall

deliver the proof of insurance required pursuant to the Contract upon execution thereof.

**FINAL PAYMENT:** Upon final completion of the Work and written ARTICLE 12. acceptance of the Work by CDD and the Engineer, permitting agencies with jurisdiction on the Work, and the issuance of all necessary governmental approvals, licenses, operating permits or other applicable approvals for the Work, Contractor shall be entitled to apply for the final payment ("Final Payment") of all remaining sums due to Contractor under Contract, including any retainage not previously disbursed. As a further condition precedent to receiving the Final Payment, Contractor shall (i) furnish to CDD a final contractor's affidavit verifying that the Work has been completed in accordance with the Contract and that all Lienors performing any portion of the Work have been paid in full, accompanied by a final lien waiver and releases of lien duly executed by Contractor and each Lienor performing any portion of the Work or having filed a Notice to CDD, all in a form prescribed by CDD, and containing such terms and provisions as CDD deems necessary or desirable in its sole discretion to ensure lien-free completion of the Work, (ii) deliver to CDD all warranties required by the Contract or the Plans and Specifications, and (iii) provide CDD, at Contractor's expense, with accurate and complete "as-built" drawings, soil testing results, and other information which CDD deems necessary or desirable to document completion of the Work (including any and all changes made in the field). Contractor's acceptance of the Final Payment shall constitute a waiver by Contractor of all claims against CDD which are unsettled at the time of the making of the Final Payment. CDD shall have thirty (30) days to make the Final Payment after all conditions precedent to Final Payment are fulfilled. Contractor waives all rights to require early disbursement of retainage under the Florida Construction Prompt Payment Law. Payments due and unpaid to Contractor shall bear interest until paid at the "Prime Rate" published from time to time in the Wall Street Journal.

**ARTICLE 13. CDD'S RIGHT TO WITHHOLD PAYMENTS:** Progress Payments may be withheld on account of (i) defective work not remedied, (ii) liens filed or threatened against the Project with respect to the Work, (iii) failure of the Contractor to make payments properly to any Lienors, (iv) failure of the Contractor to properly submit complete, detailed and verified Payment Requests on such form and content as CDD may reasonably require, (v) failure to submit all required lien waivers and releases, (vi) reasonable evidence that the Work or any portion thereof cannot be completed on or before the Completion Date, (vii) failure of Contractor to otherwise carry out the Work in accordance with the Contract or the schedule, or (viii) failure of Engineer to approve a request. If CDD withholds payment of any amounts because of a bonafide dispute with Contractor as to whether or not such payment is due or as to the amount thereof, Contractor shall remain obligated to diligently pursue and complete the Work regardless of any such dispute and Contractor shall not delay the Work by reason of the CDD's failure to make such payment.

<u>ARTICLE 14.</u> <u>TAXES:</u> Contractor shall be solely responsible for the payment of all taxes, withholdings and contributions required of CDD or Contractor by the Federal Social Security Act and the Unemployment Compensation Law or other similar state or federal laws, with respect to contractor's employees or others employed, directed or contracted for by contractor in the performance of the Work. Contractor shall pay all sales taxes, use taxes, excise taxes or similar taxes which may now or hereafter be assessed against the labor, material or services used or employed by Contractor or others in the execution of the Contract or the completion of the Work. Any sales tax exemptions obtained by CDD shall be credited to CDD for Work performed under the Contract.

#### ARTICLE 15. CATALOG CUTS AND SAMPLES OR OTHER SUBMITTALS:

Contractor shall submit to CDD, upon request, complete catalog cuts, samples and/or other information as required by the Plans and Specifications. Contractor must obtain CDD's written approval for any deviation of such samples from the requirements of the Contract and the Plans and Specifications. CDD's review and approval of any and all catalog cuts, samples or other submittals shall be for the sole purpose of providing Contractor with information as to the CDD's objectives and goals with respect to the Work and not for the purpose of determining the adequacy, accuracy or completeness of such items and shall in no way create any liability on the part of CDD for errors, inconsistencies or omissions in any approved items nor shall any such review or approval alter or diminish Contractor's responsibilities. Contractor's submission of any such items shall constitute Contractor's representation that Contractor has determined and coordinated all dimensions, measurements and qualities with existing Work or data submitted by others and with the Plans and Specifications. Once submitted, all such items shall become the property of the CDD.

ARTICLE 16. **CHANGES IN THE WORK:** CDD may, without invalidating the Contract, order, in writing, additions, deletions or modifications of the Work from time to time (hereinafter referred to as a "Change Order"). All Change Orders must be in writing and signed by CDD in order to be binding on CDD. Contractor shall not make any alterations in the Work, including modifications necessitated by applicable codes, laws, rules or regulations, unless documented by a Change Order. Contractor shall not be entitled to any increase in the Contract Price or any extension of the Completion Date in connection with any Change Orders due to alterations which are the responsibility of Contractor hereunder. All other Change Orders shall specify the adjustment, if any, which is to be made on the Contract Price or the Completion Date. All alterations approved by CDD shall be subject to all of the terms of the Contract. CDD shall determine all permitted adjustments in the Contract Price by a written Change Order specifying a fixed sum executed by CDD and accepted by Contractor. Contractor shall not be entitled to any extensions to the Completion Date or increase in the Contract Price unless approved by a Change Order. CDD may unilaterally issue Change Orders to document any adjustment in the Contract Price due to offsets or deductions permitted by the Contract. All Change Orders will be calculated as per the unit prices contained in the original bid (See attached Exhibit "F") with no additional fees or costs.

**ARTICLE 17. DELAYS:** If the Contractor is delayed at any time in the progress of the Work by changes ordered in the Work by CDD, fire, adverse weather conditions which can not reasonably be anticipated (normal rain delays already being contemplated in determining the Completion Date), unavoidable casualty or similar causes beyond the Contractor's control, then the Completion Date shall be extended by Change Orders for such reasonable time as the CDD may determine. Any claim by Contractor for an extension of the Completion Date shall be made in writing to the CDD not more than two (2) working days after the commencement of the delay, otherwise the claim for extension shall be waived. In the case of a continuing delay only one claim is necessary. Contractor shall identify with specificity the cause of the delay and shall provide an estimate of the probable effect of such delay on the progress of the Work. Any claim for delay by the Contractor shall only serve to extend the Completion Date and shall not entitle the Contractor any increase in the Contract Price, except as specified in Article 10 above.

**<u>ARTICLE 18.</u> <u>INDEMNIFICATION:</u>** To the fullest extent permitted by law, Contractor shall, at Contractor's expense, defend, indemnify, save and hold harmless CDD, its respective members, partners, parents, affiliates, officers, directors, agents, and employees, CDD's

successors or assigns, and any of their respective members, partners, parents, affiliates, officers, directors, agents, and employees as well as any other person or entity acting for or on behalf of any of them and any other person or entity that CDD is required to contractually indemnify or name as an additional insured, from and against all liability, damage, loss, claims, bodily injury, property damage, personal and advertising injury, and expenses, including but not limited to attorneys' fees, costs, court costs and disbursements, arising out of or alleged to arise out of the Work, including, without limitation, Contractor's work, work performed on Contractor's behalf, or the performance of such work by Contractor or on its behalf, and including, without limitation, any construction lien disputes related to the Work, any patent infringements, any injuries to persons or property (including death or illness) arising from or related to the Work (regardless of whether partially contributed to by CDD's and County's acts or negligence), any expenses or liability incurred under unemployment compensation or worker's compensation laws or social security laws in connection with employees of Contractor, or otherwise arising from or related to any Work or Contractor's obligations under this Agreement. Attorneys' fees, costs, court costs and disbursements shall be defined to include those fees, costs, court costs and disbursements incurred in defending the underlying claim and those fees, costs, court costs and disbursements incurred in connection with the enforcement of this Agreement.

In any claims against any person or entity indemnified under this Section by an employee of the Contractor or the Contractor's sub-subcontractors, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, the indemnification obligation under this Section shall not be limited by a limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or the Contractor's sub-subcontractors under workers' compensation acts, disability benefit acts or other employee benefit acts.

Contractor's indemnity obligation pursuant to this Section shall not be construed to negate, abridge or otherwise reduce any other right or obligation of indemnity that would otherwise exist as to any Party or person described in this Section.

Contractor's assumption of liability is independent from, and not limited in any manner by, Contractor's insurance coverage obtained pursuant to this Agreement or otherwise.

Contractor acknowledges CDD's full compliance with Section 725.06, Florida Statutes under all Contract documents.

# ARTICLE 19. INSURANCE:

Prior to commencing any work or operations in connection with this Agreement, Contractor shall purchase and maintain throughout the term of this Agreement, the insurance coverage specified below:

1. Standard Commercial Automobile Liability Insurance covering all owned, non-owned and hired automobiles, trucks, and trailers with a per occurrence limit of liability of not less than \$2,000,000 for bodily injury and property damage.

- 2. Workers' Compensation and Employer's Liability Insurance with statutory workers' compensation coverage (including occupational disease) and employer's liability limits in accordance with applicable state law but in no event less than \$2,000,000 each accident/\$2,000,000 disease-each employee/\$2,000,000 disease-policy limit.
- 3. Commercial General Liability Insurance in a form providing coverage not less than the standard ISO commercial general liability insurance policy CG 00 01 ("Occurrence Form"), including insurance for premises, operations, independent contractors, products-completed operations (explosion, collapse and underground coverage if applicable), and contractual liability. Such insurance must not include any exclusion for work performed by the Contractor (e.g., exterior height exclusion for Contractor providing exterior façade work; residential exclusion for Contractor providing residential work) or any Action Over or similar exclusion. Excess or Umbrella Liability Insurance shall provide coverage that is no less restrictive than that required above and shall be available in excess of Employer's Liability Insurance and Commercial Automobile Liability Insurance.
- 4. The limits of the commercial general liability policy, and any excess or umbrella liability policy, shall be for not less than \$5,000,000.00. Total required limits may be achieved by a primary policy or the combination of a primary policy and excess policy(ies), so long as the primary policy has a limit of not less than \$1 million.
- Each policy required under this Section, except the workers' compensation policy, shall name 5. CDD its affiliates, joint ventures, officers, directors, agents, and employees as additional insureds, and will name as additional insureds any other person or entity CDD is required to indemnify or to name as an additional insured including any successors and assigns of CDD (the "Additional Insureds"). The insurance afforded to the Additional Insureds shall be written on Form CG 20 10 04 13 and CG 20 37 04 13 or their equivalent, and the additional insured endorsements must not require a direct contractual relationship between the Contractor and the additional insured(s). The insurance afforded to the Additional Insureds shall be primary and non-contributory to any other insurance or self-insurance, including any deductible, maintained by, provided to, or available to the Additional Insured(s). Specifically, Contractor shall have its primary policies endorsed to cause the coverage afforded to the Additional Insureds under such policies to be primary to and non-contributory with any other insurance or self-insurance, including any deductible, maintained by, provided to, or available to the Additional Insured(s). Further, Contractor shall have its excess/umbrella policy(ies) endorsed to cause the coverage afforded to the Additional Insureds under such policy(ies) to be first tier excess/umbrella coverage immediately above the primary coverage provided to Contractor and not concurrent with, contributing with or excess of any other insurance maintained by, provided to, or available to the Additional Insured(s), whether such other insurance is provided on a primary, excess or other basis.

Contractor shall also comply with the insurance requirements detailed in the County permit.

It is expressly understood by the Parties to this Agreement that it is the intent of the Parties that any insurance, whether primary, excess or on any other basis, obtained by the Additional Insureds is deemed excess, non-contributory and not co-primary or co-excess in relation to the coverage(s) procured by the Contractor or any sub-subcontractors.

- 6. All policies required by this Agreement shall include a waiver of subrogation clause in favor of the Additional Insureds, which clause shall also apply to the Additional Insureds' officers, agents and employees.

A failure to detect that Contractor has not submitted certificates, or proper certificates, or otherwise is not in compliance with the insurance requirements of this section, shall not be considered a waiver or other impairment of CDD's rights under this Agreement. Upon request, the Contractor shall furnish CDD with copies of all additional insured endorsements.
- 9. Contractor agrees that the insurance required by this Section will be maintained continuously from the commencement of the Work until the entire Work to be performed by the Contractor under this Agreement is completed and accepted by CDD. If the Contractor fails to procure and maintain the insurance required by this Section, in addition to the option of declaring Contractor in default for breach of a material provision of the Agreement, CDD shall have the right, but not the duty, to procure and maintain as the Contractor's expense, the same insurance or other insurance that provides the equivalent protection, and Contractor shall furnish all necessary information to make effective and maintain such insurance. At the option of the CDD, the cost of said insurance shall be charged against and deducted from any monies then due or to become due to Contractor or CDD shall notify Contractor of the cost of such insurance and Contractor shall promptly pay such cost.
- 12. In the event that the insurance company(ies) issuing the policy(ies) required by this Agreement deny coverage to the CDD or any other person or entity CDD is required to name as an additional insured, the Contractor will, upon demand by the CDD, defend and indemnify the CDD and/or any other person or entity CDD is required to name as an additional insured at the Contractor's expense.

  - During annual maintenance; The expansion tank and backflow were found to be faulty and were replaced.

Hello Jason I wish this mail finds you well . Im sending you the answers on your questions, also I wanted to notice that we will have and a kids menu .

#### 1. What days and hours will you be open?

For the moment, I'm planning to be open on weekends. However, I'm flexible and can adjust the schedule based on your needs or special events.

#### 2. Will you hold the liquor license?

At the moment, I don't hold a liquor license. However, if it's something of interest to you or the board, we can consider obtaining one or renting it when needed.

#### 3. What are prices for menu items?

Once we agree on the menu, I will calculate the cost of the products, and then we can set the final prices accordingly.

#### 4. How do you propose we address furniture, cutlery, dishes, etc.? Will you supply?

For the moment, I can provide plates and all necessary items for the dining experience. As we move forward and identify which areas work best and if there's interest in having a seated restaurant, we can create a plan to include tables and a more permanent setup.
